Experience

Hack Club

San Francisco CA, Burlington VT

Program Lead, Engineer & Designer (Gap Year)

April 2025 – August 2026

Hack Club is a 501(c)(3) nonprofit and a network of 100,000+ high schoolers in 119 countries.

- Core engineering and design team for Stardance, a global online engineering challenge for teens. Ran in partnership with NASA, AMD, and Github, grew to 30,000+ signups.
- Solo designed and built Milkyway, an online game development challenge with 3,000 signups and 200 daily active users. Designed tshirts, jackets, stickers for production. Cumulated in Overglade, an in-person hackathon in Singapore for 50 teens globally.
- Redesigned hackclub.com homepage, the organisation's main public-facing page.
- Represented Hack Club at GDC Festival of Gaming 2026.

Apple, Swift Accelerator Programme

Singapore

iOS App Development Mentor

November 2023 – June 2025

Swift Accelerator Programme is a tech talent development program by Apple and Tinkercademy.
